Timber™: Wood-Look Acoustic Baffles

Natural warmth. Modern performance.

Timber ceiling baffles combine the warmth of natural wood with the acoustic performance of PET felt. Designed to replicate the appearance of real timber, these lightweight panels provide exceptional sound absorption with effortless installation. Their clean, linear form adds depth and sophistication to ceilings, making them ideal for offices, hospitality, retail, and public spaces seeking both style and serenity.

Key Features

- Wood-look PET felt baffles for natural, architectural appeal
- Lightweight, modular components for easy installation
- Excellent acoustic performance (NRC rating up to 1.00)
- Multiple lengths, widths, heights, and depth options for flexible ceiling layouts
- Available in standard felt finishes and digitally printed woodgrains
- Adjustable aircraft cable suspension system
- ASTM E84 Class A fire rating
- Made from 75%+ recycled PET felt and recyclable

Design Your Space

- 1 Installation layout and quantity
- 2 Suspension height and spacing between units
- 3 Cable and bracket mounting preferences
- 4 Color selection and finish direction

Design Your Layout – Bring Natural Tones to Modern Spaces

Timber baffles are available in a range of sizes and wood-like finishes, making them adaptable to a wide variety of ceiling types and interior palettes. Whether arranged in rows, clusters formations, Timber offers creative freedom with acoustic intent.

Work With Our Design Team

Our specialists help you configure layouts based on room use, ceiling height, acoustic goals, and architectural context.

Already Have a Vision?

Send us your concept or photos. We'll help you with your layout plan with dimensions, spacing guides, and finish recommendations.

Info That Helps Us Help You:

- Ceiling height and room square footage
- Preferred baffle spacing and density
- Obstructions (lights, HVAC, sprinklers)
- Desired wood tone or finish style

Layout Ideas

- **Tight Grid: (12-18"):** Acoustic intensity + beam-like architectural structure
- **Moderate Spacing: (18-24"):** Balanced coverage and visual rhythm
- **Wide Spacing (24"+):** Light touch of wood warmth, ideal for open ceilings

Mounting & Connections – Seamless Installation

Timber installs with streamlined hardware that keeps the focus on the finish.

Mounting System Features

- Aircraft cable suspension for quick & easy adjustment
- Concealed mounting for clean underside appearance
- Compatible with drywall, open to structure, and T-grid systems
- Factory labeled parts to simplify installation

Installation Notes

- Pre-determined mounting points for balanced suspension
- Install guides provided

Mounting Option A

Plank Attachment

Mounting Option B

Joiner Plate

Joiner Plate attachments available where attaching the panels may be required

Natural Looks, Custom Feel

Timber is available in ONNiT’s full color range, with optional digitally printed woodgrain finishes that mimic walnut, oak, maple, and other real timber species.

Dimensions and Specifications

ATTRIBUTE	DETAIL
Dimensions	Standard Beam Dimensions Lengths: 48", 72", or 96" Widths: 2", 4", 6", 10", or 12" Heights: 4", 6", 10", or 12" Beam Connectors: Extend to create continuous lengths
Material	PET felt, 9mm thick; woodgrain printed options
Finish Options	ONNiT Standard Color Palette + printed wood textures
Mounting	Adjustable aircraft cable system
Weight	Approx. 1.2–1.5 lb per sq. ft.
NRC Rating	Up to 1.00 (configuration dependent)
Fire Rating	ASTM E84 Class A
Sustainability	Up to 75% recycled content, 100% recyclable

Use Cases

Hotels, lounges, & hospitality

Libraries & educational facilities

Reception and lobby areas

Corporate interiors and meeting spaces

Retail ceilings for warm ambiance

Sustainability + Compliance

- Constructed from PET felt with 75%+ recycled content
- Formaldehyde-free and low VOC
- Made with Certified OEKO-TEX® and Global Recycled Standard (GRS)
- Contributes to LEED MR and EQ credits

Acoustic Testing Data

- NRC values range from 0.65–1.00
- Independent testing (Intertek)
- Based on full-module and multi-module installations
