

**Striix™**

*Linear Acoustic Panels*

*Ceiling & Wall Panel Series*

## Striix™ Linear Acoustic Panels

*Performance with Precision.*

Striix™ brings rhythm, dimension, and high-performance sound absorption together in a linear system designed for both wall and ceiling applications. Its precision-cut acoustic baffles create a sculptural effect that blends architectural clarity with acoustic comfort. Available in a range of panel types and layout options, Striix™ transforms open ceilings and vertical surfaces into calm, visually engaging environments.

Key Features

- Multi-depth acoustic blade profiles
- Available for both ceiling and wall applications
- 9mm PET felt: 75% recycled content, 100% recyclable
- Precision CNC-cut baffles with 1" or customizable spacing
- Mounts to standard 9/16" or 15/16" ceiling tee grids
- Mounts with wall z-clips or conceal mount screws
- Capped baffle edges available for exposed installations
- NRC up to 1.00 depending on configuration
- Custom patterns, sizing, and colors available

Dimensions and Specifications

ATTRIBUTE	DETAIL
Ceiling	24" x 48" (standard)
Wall	24" x 108" (standard)
Hard Surface Ceiling Mounting	Z-Clips, Conceal Mount Screws and FRP Adhesive
Wall Mounting	Z-Clips, Conceal Mount Screws and FRP Adhesive

Standard Panel Types

Striix - 1

Striix - 3

Striix - 2

Striix - 4

Back of Striix panel

- .5" Space between the panel and the wall
- Interlocking notches insert through the back panel for precise baffle alignment.

Striix Panel

## Installation & Mounting

### Ceiling Installation Options

- Concealed Screws
- FRP Adhesive

Use concealed screws and adhesive for a stronger bond

FRP Adhesive

Concealed Screws

### Wall Mounting:

- Concealed Screws
- FRP Adhesive
- Z Clips

Use concealed screws and adhesive for a stronger bond

Z Clip

## Design Your Space

### Layout & Quantity

- Define the desired area for ceiling and/or wall coverage
- Mix panel types for visual rhythm or use uniform panel design for cohesion

### Orientation & Spacing

- Align blades vertically, horizontally, or mix for dynamic designs
- Allow minimum 1" spacing between baffles

## Design Your Space

### Edge Conditions

- Capped baffles recommended for exposed edges
- Panels are field-trimmable for exact fit
- Use X joiners to help connect the panels more seamlessly

### Color Selection

- Choose contrasting or tonal combinations between baffles and backer
- Full color palette + custom digital print finishes available

## Customization

- **Panel Sizes:** Custom lengths and patterns available
- **Baffle Color Options:** Wood Grains or Solid Felt Colors
- **Backer Color Options:** Wood Grains or Solid Felt Colors
- **Layout Coordination:** Panels can be modified in field to accommodate fixtures

## *Standard Finish Options – Bring Wood to Life.*

Choose from 8 warm, neutral, or dark wood grains.

Whitewashed Maple

Urban Ash

Brown Walnut

Natural Oak

Driftwood

Blonde Birch

Deep Walnut

Classic Walnut

*Finish Options - Color with Character. Form with Purpose.*

Choose from ONNiT’s 32 standard PET colors, ranging from subtle neutrals to bold accent hues. Create tonal variations or contrast within a single wall layout to highlight form and texture.

**Custom Options:** • Custom color matching available • Multicolor tile sets available upon request

## *Sustainability + Compliance*

- Made from 75%+ post-consumer recycled PET
- Made with Certified OEKO-TEX® and Global Recycled Standard (GRS) materials
- Formaldehyde-free and low VOC
- Moisture, mold and mildew resistant
- Contributes to LEED MR and EQ credits
